X-Team - Software Developer

Contract | Remote | 1 yr 6 mos

Feb 2023 - Present

I'm collaborating with Supergroup developing a Hybrid app.

React Native - Expo - Neo4j - Apollo

Oct 2022 - Feb 2023

I worked on an internal project to develop a web-based card game. I was responsible for implementing all the game features, logic.

React - TailwindCSS - Typescript - Apollo - Prisma - PostgreSQL

Oct 2021 - Oct 2022

I collaborated with Supergroup to develop a responsive web app. The app provides interface for managing and accessing various data sources. I was responsible for implementing new features, and integrating services, maintained and updated other projects. These projects involved creating dynamic pages using server-side rendering and static site generation and fetching and displaying content from a CMS.

React - Typescript - Hasura - NextJS - Prisma - Apollo - Contentful - PostgreSQL

Advison Development - Team Lead | Senior Dev

Full Time | Hibrid | 3 yr 3 mos

Jan 2020 - Oct 2021

I worked as a team lead after being promoted from a senior developer role. I was responsible for developing two projects: a betting and odds sports game and a blog forum. I lead a team of four developers with different experience levels and managed the project priorities, tasks, reviewed code, provided mentoring and feedback to my teammates, and assisted in development

React - PHP - GQL - WebSocket - PostgreSQL

Feb 2019 - Jan 2020

I started as a mid-senior developer and proved my skills by writing scripts to automate tasks and improve efficiency for the team promoting me to a senior dev. I also assisted other developers with debugging and testing and learned from their feedback, and I gradually took on more responsibilities and challenges like developing new features with real-time data on web apps.

React - GQL - WebSocket - PostgreSQL

Aug 2018 - Feb 2019

As a mid-senior, I was responsible for developing custom features and plugins and maintaining a blog site.

PHP - vBulletin

Centauro Solutions - Junior Developer

Full Time | On-site | 2 yr 5 mos

Apr 2016 - Aug 2018

I was responsible for designing, implementing, testing, and deploying web apps.

React - Typescript - PHP - .NET
